

October 21, 2013,

Neil Rubeniuk
CONOCOPHILLIPS CANADA OPERATIONS LTD.
PO Box 4365 Station C
Calgary AB T2P 3C5

Dear Mr. Rubeniuk:

**COMMINGLED PRODUCTION (GAS)
CHAMBERS ELKTON A AND UPPER MANNVILLE A POOLS
00/05-08-041-11W5/0
APPLICATION NO. 1772766
MU ORDER MU8532**

The Alberta Energy Regulator (AER) has considered your application dated September 11, 2013 requesting approval to commingle gas production from the above-noted pools through the well with the unique identifier of 00/05-08-041-11W5/0. Your application has been granted and the AER Order noted above has been issued reflecting commingling on a pool basis.

ConocoPhillips Canada Operations Ltd. is advised that commingled production is to be reported through the Petrinex, Canada's Petroleum Information Network using the production pool code **0205 0999660**.

The AER requires that production from the subject pools that is commingled in the wellbore be reported as such. The well status changes and production information must be submitted to the AER electronically through the Petrinex website (www.petrinex.ca) in accordance with *Directive007: AER Volumetrics and Infrastructure Requirements*.

Questions may be directed to Jamie D'Mello at 403-476-4519.

Yours truly,

Sukh Mangat, C.E.T.
