To Whom it May Concern,

Section 33 Application for Removal of a Pipeline

We are looking to remove a section of Pipeline #7189-18 on 02-03-37-07W4 and 01-03-37-07W4. A 2000sq foot dwelling with a basement, garage and shop are projected to be built on the property as soon as June 2025, with foundation and basement plans to go near or over the abandon pipeline. We are proposing that a small section of the pipeline be dug and removed to accommodate this build.

Time line for the removal would be as soon as possible, ideally completed prior to June 2025 as to accommodate the start of the building process.

Attached is a drawing of the land, including the pipeline location and an X denoting the proposed location of the dwelling.

We are the current land owners, and we currently farm this land for haying and cattle grazing purposes. A subdivision to our children, Cody and Jenelle Levie, has been submitted and they will be the landowners following the application. Both parties agree that the best course of action for this land and the proposed acreage build would be a partial pipeline removal as its presence will significantly impact the development of the dwelling, the basement, the water and power lines as well as future development on the property.

While we would like to see the current operating oil company, Longrun Exploration Ltd., take care of the removal and all associated costs, we are also aware that said oil company is currently in the process of filing for bankruptcy. Therefore, we are willing to work with all stakeholders to share associated costs to expedite the process and have the pipeline removed in a timely manner.

In discussion with multiple oilfield reclamation companies, we are proposing that the pipeline section be removed by exposing two ends with an excavator, cutting the pipe line section, removing the pipe and capping both ends of the abandon pipe line. Removal costs on the high end could exceed \$10,000. Thank you for your consideration in this matter and for reviewing our application. We look forward to hearing from you soon.

Sincerely

Lori Ference
