

Bulletin 2021-30

July 29, 2021

New Release Reporting Form

Today we published a new edition of our release reporting form. Older versions will no longer be accepted.

The new format makes it easier for the licensee to focus on the questions relevant to the release. We have also streamlined the questions, bringing them up to date with current requirements and reducing duplication (particularly around the record of site condition and pipelines). This form allows us to consistently determine the level of review around contamination management while protecting public safety and the environment.

The form and associated release reporting documentation are also available on our website, aer.ca > Regulating Development > Compliance > [Release Reporting](#). If you have any questions, please contact the AER's Customer Contact Centre by phone at 403-297-8311 (1-855-297-8311 toll free) or by email at inquiries@aer.ca.
