

Bulletin 2019-24

October 18, 2019

Revised Date for Move of New Well Applications to OneStop

On October 3, 2019, we issued [Bulletin 2019-22](#) announcing that all applications for new well licences would need to be submitted through OneStop as of October 17, 2019. This move has been delayed and will now occur on **November 7, 2019**.

The Digital Data Submission (DDS) system will stop accepting new well applications as of 5:00 p.m. on October 31, 2019, as a result of this transition to OneStop. A OneStop outage will be scheduled to implement the requisite changes. Further information about this outage will be posted on our [Systems and Tools](#) portal on our website, www.aer.ca, when available.

Details about upcoming training sessions can be found at www.aer.ca > Protecting What Matters > Giving Albertans a Voice > [Events](#).

If you have questions about OneStop, please contact the AER's Customer Contact Centre by phone at 403-297-8311 (1-855-297-8311 toll free) or by email to [inquiries@aer.ca](mailto:inquiries@ aer.ca).
