Invitation for Feedback on Revisions to *Directive 067*

We are seeking feedback on a new edition of *Directive 067: Eligibility Requirements for Acquiring and Holding Energy Licences and Approvals*. The proposed changes include requiring additional information, particularly financial information, at the time of application and throughout the life cycle to enable us to

- assess licensee eligibility,
- assess the capabilities of licensees and approval holders to meet their regulatory and liability obligations throughout the energy development life cycle,
- administer our liability management programs, and
- ensure the safe, orderly, and environmentally responsible development of energy resources in Alberta throughout their life cycle.

These changes support the Government of Alberta's new [Liability Management Framework](#) and are enabled by rule changes announced in our *Bulletin 2020-26*.
