Helium Reporting Added to Petrinex

On May 13, 2020, the Government of Alberta issued *Information Letter 2020-22*, applying a royalty to helium. As a result, Petrinex has been updated to collect helium production volumes effective April 7, 2021.

Today we released new editions of *Directive 007: Volumetric and Infrastructure Requirements* and *Manual 011: How to Submit Volumetric Data to the AER*.

- In *Directive 007*, helium is specified as a substance for reporting purposes.
- In *Manual 011*, codes regarding helium have been added to the appendices and minor changes were made to better align it with current Petrinex functionality.
- In both documents we made minor revisions to reduce duplication as part of our contributions towards the Government of Alberta's *Red Tape Reduction Act*.

The new editions of *Directive 007* and *Manual 011* are available on our website, www.aer.ca. If you have any questions, please contact our Customer Contact Centre by phone at 403-297-8311 (1-855-297-8311) or by email at inquiries@ aer.ca.
