

# Bulletin 2021-13

April 8, 2021

## New Functionality Moving to OneStop

On April 22, 2021, we will release new functionality to the OneStop platform:

- **Reporting:** Licensees will have the ability to submit a pre-2019 remedial action plan (RAP) as required by the Remediation Regulation. More information can be found on our website, [www.aer.ca](http://www.aer.ca) under [Pre-2019 Substance Releases](#).

Details on other enhancements and fixes will be made available at the time of release in the “What’s New” document, found on the OneStop landing page under “Enhancements and Fixes”.

We will schedule a system outage to implement these new changes. The outage notice will be posted on our Systems and Tools portal on our website, [www.aer.ca](http://www.aer.ca) and the OneStop landing page.

## Training and support materials

Following the software release, we will hold training sessions on the pre-2019 RAP functionality. More information can be found on the [Events](#) page.

A new quick reference guide (QRG) will also be posted on the OneStop landing page; this supports RAP submissions for unreported pre-2019 substance releases.

If you have questions about OneStop or this bulletin, contact the AER’s Customer Contact Centre by phone at 403-297-8311 (1-855-297-8311 toll free) or by email at [inquiries@aer.ca](mailto:inquiries@ aer.ca).
