Changes to the Mine Financial Security Program Guide

On May 6, 2021, Alberta Environment & Parks updated the [Mine Financial Security Program Standard](#), allowing us to permit mine approval holders to use an alternative methodology to calculate their mine financial security requirements. In response, we have amended the *Guide to the Mine Financial Security Program* to reflect this change. The updated materials are available on our website, aer.ca, Regulating Development > Project Closure > Liability Management Programs and Processes > [Mine Financial Security Program](#).

If you have any questions, contact the Customer Contact Centre by phone at 1-855-297-8311 or email at inquiries@aer.ca.
