NOTE: For any new codes or additions to this list, please contact (via Email) <mailto:WellTest-Helpline@aer.ca>

All “Business Rules” applying to WTC PAS files are incorporated within the individual PAS File Specification Documents.

These documents outline the Type of PAS files and contain within each type, the specific mnemonics (i.e. SERCO) and all associated Edits and Rules as they apply to electronic submissions.

The files are located in the Well Test Data folder on the [DDS](#) menu directory.

Caution: Please remember to ensure that the SERCO submitted matches exactly to that assigned on this list. All extra characters (such as ‘spaces’, “dashes” or ‘periods’) may in turn produce inconsistent data/audits for “**all** stakeholders”.
