**Re: Northback Holdings Corporation ("Northback")
Applications 1948657, A10123772, and 00497386 (the "Applications")
Participation Decision for the Pekisko Group ("Pekisko")**

Dear Laura Laing:

I am writing to you on behalf of Parand Meysami (Presiding), Meg Barker, and Shona Mackenzie, the Alberta Energy Regulator (AER) panel of hearing commissioners (the panel) presiding over proceeding 444.

Background

The AER will hold a public hearing for applications for a Coal Exploration Program (A10123772), a Deep Drilling Permit (1948547) and a Temporary Diversion Licence (00497386), submitted by Northback.

On April 10, 2024, the panel issued a notice of hearing for proceeding 444 and set a filing deadline of May 1, 2024, for requests to participate. This letter is the panel's decision regarding Pekisko's request to participate in the hearing.

On May 1, 2024, the AER received Pekisko's request to participate in the hearing.

Pekisko requested to be a full participant in the hearing. In its request, Pekisko described itself as an association of many families including farmers and agricultural producers bound together by the common vision of a healthy and prosperous future for all people in southern Alberta. It stated that its participation in the hearing will materially assist the AER in providing independent scientific and factual information relating to air contamination and water allocation, in addition to the impacts to the agricultural value chain in SW Alberta.

On May 9, 2024, Northback provided a response to the requests to participate and submitted that Pekisko should only be granted limited participation in the hearing.

On June 5, 2024, Pekisko was given an opportunity to respond to Northback's submission regarding their participation but did not respond.

Legal Framework

Section 34(3) of the *Responsible Energy Development Act* states that: "... a person who may be directly and adversely affected by the application is entitled to be heard at the hearing". In addition, the *Alberta Energy Regulator Rules of Practice (Rules)* give the hearing panel discretion to permit participation of persons who have a tangible interest and whose participation will materially assist the panel in deciding the matter that is the subject of the hearing without unnecessarily delaying the proceedings or repeating or duplicating evidence. The participation provisions in the *Rules* are intended to ensure a fair and efficient process and the development of a complete record that enables the panel to decide Applications.

Panel Decision

The panel has decided to grant Pekisko limited participation in proceeding 444. The information provided does not demonstrate sufficient proximity between your membership and the proposed location of the activities associated with the Applications. As such, it is not possible to conclude that Pekisko's members may be directly and adversely affected by a decision on the Applications. Further, the information Pekisko provided regarding its concerns appear to be more general in nature and not specific to these Applications. However, the panel is interested in hearing your perspective on this matter and so you have been given limited participation.

Subject to further direction or rulings from the panel, limited participation allows you to provide a written submission and/or make an oral presentation to the hearing panel under oath or affirmation. There will be a deadline for your written submission and a time limit on oral presentations that will be communicated to you at a later date.

All participants will have an opportunity to attend an optional information session prior to the hearing. Details of that session and information regarding the schedule and scope of the hearing will also be provided at a later date.

Submissions and evidence in this matter must be relevant and material to the Applications. This proceeding can be expected to have a large number of participants. It is the panel's goal to have a process that is not only fair and transparent, but also efficient. To this end, the panel encourages parties to make efforts to collaborate with other parties when their interests align and avoid duplicating evidence provided by others in the proceeding. As described below, there may be significant cost claim consequences for participants who do not contribute to the efficiency of this proceeding.

Cost Claims

Hearing participants may be eligible to submit a cost claim to recover some of the costs of their participation under the *Alberta Energy Regulator's Directive 031: REDA Energy Cost Claims*. Section 58.1 of the *Rules* sets out the factors that are taken into consideration when deciding an application for costs. Those factors include whether a participant has attempted to consolidate common issues or resources with other parties (s. 58.1(f)) and whether the conduct of the participant tended to shorten or unnecessarily lengthen the proceeding (s. 58.1(m)).

Hearing Process

Parties can expect direction from the panel regarding the hearing process and timelines in due course. If you have any questions, please contact hearing.services@aer.ca.

Sincerely,

Parand Meysami
Presiding Hearing Commissioner

cc: Martin Ignasiak, KC and Thomas Machell, Bennett Jones LLP
Angela Beattie, Sarah Nossiter, Northback Holdings Corporation
Meighan LaCasse, Alana Hall, Shauna Gibbons, AER counsel for the panel
Tara Wheaton, Elaine Arruda, AER hearing coordinators
Hearing Participants, as identified in the attached 'Schedule of Participants for AER Proceeding 444'

Schedule of Participants for AER Proceeding 444
