**RE: Ferus Natural Gas Fuels Inc.
Application No. 1831816 for an LNG facility**

Dear Mr. Clegg and Ms. Clegg:

Julia MacPhee received the email sent by Jeannine Boddez on your behalf on October 23, 2015, along with an attached letter dated October 23, 2015 and five other attachments. The panel of hearing commissioners assigned to this matter have asked me to respond to you.

In the letter you request that the AER provide “copies of the original CU Gas Ltd. Application, all associated reports, the complete Hearing transcripts, the Decision and any other information on the record”. Requests for information of this type may be made through the AER Products and Services Catalogue “Applications & Approvals”. You can follow this link: <http://www1.aer.ca/ProductCatalogue/290.html> where you can request these documents.

Your letter and the five other attachments contain personal information which the AER is not authorized to collect or retain. Particularly problematic is the personal information of a third party contained in the letter. Further, the letter contains what Ferus has advised is information relating to confidential without prejudice settlement discussions between Ferus and a third party. As such, the AER will be destroying the October 23, 2015, letter and five attachments and will retain no copies.

If there is information contained in your letter or the five attachments that is not personal information or information relating to privileged without prejudice settlement discussions and which you wish to have on the record for Ferus’ Application No. 1831816, you may resubmit that information to the AER.

Yours truly,

Jennifer Koppe
Hearing Coordinator, Hearing Services
