Donna Dahm and Bob Plowman

**Application No. 1837324**  
**Baytex Energy Limited**  
**Statement of Concern No. 29976**

Dear Ms. Dahm and Mr. Plowman:

You are receiving this letter because you filed a statement of concern about the subject application. The Alberta Energy Regulator (AER) has reviewed your statement of concern, along with the application, the applicable requirements, and other submissions or information about the application and has decided that a hearing is not required under an enactment or otherwise necessary to consider the concerns outlined in your statement of concern.

In its review of your concerns, the AER considered the following:

- This is an amendment to an existing facility located at 3-16-82-18W5M, licence F47880. Approval of the amendment application will not result in additional wells or facilities at the site.
- Ms. Dahm's lands are located about 23.6 km from this facility.
- Mr. Plowman's lands are located about 25.6 km from this facility.
- Pursuant to *Directive 060 Upstream Petroleum Industry Flaring, Incinerating, and Venting* there is no venting permitted at the facility site, and all gas is captured via vapour recovery units. The facility has been designed to be fully compliant with the requirements of *Directive 060*, including the requirements specific to the Peace River area in which the facility is located.
- Regarding the concern about wetlands this is an existing facility and no new lands will be used or impacted as a result of the amendment application. The equipment spacing and mitigation measures in place to protect the surrounding muskeg have been reviewed and deemed satisfactory. The facility is located on Crown land, and the potential impact on water bodies would have been assessed

at the time of the original Public Land Use application process, prior to the approval and construction of the existing facility.

- You have not provided information that demonstrates that you may use lands or other natural resources in the project area or other locations that may be affected by the project, or that the kinds of impacts you are concerned with may result from the application.
- The AER is satisfied that Baytex has met all consultation and notification requirements that apply to you in relation to the application.

inquiries 1-855-297-8311  
24-hour  
emergency 1-800-222-6514

Based on the above, you have not demonstrated that you may be directly and adversely affected by the application for the amended facility licence. The AER has issued the applied-for licence amendment and this is your notice of that decision. A copy of the licence amendment is attached. Under the *Responsible Energy Development Act* an eligible person may file a request for a regulatory appeal on an appealable decision. Eligible persons and appealable decisions are defined in section 36 of the *Responsible Energy Development Act* and section 3.1 of the *Responsible Development Act General Regulation*. If you wish to file a request for regulatory appeal, you must submit your request in the form and manner and within the timeframe required by the AER. You can find filing requirements and forms on the AER website [www.aer.ca](http://www.aer.ca) under Applications & Notices: Appeals.

If you have any questions, contact Lonny Olsen at 403-297-3513 or e-mail [Lonny.Olsen@aer.ca](mailto:Lonny.Olsen@aer.ca).

Sincerely,

<original signed by>
