Mr. Cameron Grabo  
**Mancal Energy Inc.**

**APPLICATION No. 1857767 from Mancal Energy Inc.**  
**STATEMENT OF CONCERN NO. 30273**

Dear Cameron Grabo:

You are receiving this letter because you filed a statement of concern about Application No. 1857767. The Alberta Energy Regulator (AER) has reviewed your statement of concern, along with the application, the applicable requirements, and other submissions or information about the application and has decided that a hearing is not required under an enactment or otherwise necessary to consider the concerns outlined in your statement of concern.

In its review of your concerns, the AER considered the following:

- You do not own the lands on which the activity is proposed.
- The lands you occupy and farm are located about 185m east of the proposed project
- Your sole concern is about clubroot contamination. The AER is satisfied your concerns have been addressed by the mitigation measures that are proposed by Mancal Energy Inc.(Mancal).
- Mancal will not be directly accessing your lands during the construction and operation of this well site.

Based on the above, you have not demonstrated that you may be directly and adversely affected by the AER's decision on this application.

The AER has issued the applied-for licence and this is your notice of that decision. A copy of the licence is attached. Under the *Responsible Energy Development Act* an eligible person may file a request for a regulatory appeal on an appealable decision. Eligible persons and appealable decisions are defined in section 36 of the *Responsible*

*Energy Development Act* and section 3.1 of the *Responsible Energy Development Act General Regulation*. If you wish to file a request for regulatory appeal, you must submit your request in the form and manner and within the timeframe required by the AER. You can find filing requirements and forms on the AER website [www.aer.ca](http://www.aer.ca) under Applications & Notices: Appeals.
