**APPLICATIONS No. 1861228 and 1867410.  
PETRUS RESOURCES CORP.  
STATEMENT OF CONCERN NO. 30348 and 30429**

Dear Mr. Green:

You are receiving this letter because you filed two statements of concern about Applications No. 1861228 and 1867410. The Alberta Energy Regulator (AER) has reviewed your statements of concern, along with the applications, the applicable requirements, and other submissions or information about the application and has decided that a hearing is not required under an enactment or otherwise necessary to consider the concerns outlined in your statement of concern. In its review of your concerns, the AER considered the following:

- You do not own the lands where the project is proposed.
- You did not demonstrate that a 100 m setback radius around the proposed sweet well will adversely impact the use and enjoyment of your lands. No evidence was provided to support future development plans within the 100 m radius.
- You did not provide sufficient information to demonstrate that you will be directly and adversely affected by the proposed wells.

The AER has issued the applied-for licences and this is your notice of that decision. The copies of the licences are attached. Under the *Responsible Energy Development Act* an eligible person may file a request for a regulatory appeal on an appealable decision. Eligible persons and appealable decisions are defined in section 36 of the *Responsible Energy Development Act* and section 3.1 of the *Responsible Energy Development Act General Regulation*. If you wish to file a request for regulatory appeal, you must submit your request in the form and manner and within the timeframe required by the AER. You can find filing requirements and forms on the AER website [www.aer.ca](http://www.aer.ca) under Applications & Notices: Appeals.
