APPLICATION NO. 1917133
STATEMENT OF CONCERN NO. 31408**

You are receiving this letter because you filed a statement of concern (SOC) about Application No. 1917133. The Alberta Energy Regulator (AER) has reviewed your SOC, along with the application documentation.

In our review of your SOC the AER noted the following:

- Your concerns about the working interest percentages are a private contractual matter between yourself and Bellatrix Exploration Ltd. and are outside the jurisdiction of the AER.
- Bellatrix Exploration Ltd. will have future opportunities to correct the AER's records with respect to working interest percentages in the future if necessary.

When a decision is made on the Application you can find that decision at <https://aer.ca/search-pod>. Based on the considerations and reasons discussed above, the AER does not believe a hearing of the Application is necessary to render a decision. If a hearing on the Application is to be held for reasons other than the concerns you raise, a notice of hearing will be published.

You may file a regulatory appeal on the AER's decision on the Application, **once it is issued**, and only if you meet the criteria within section 36 of the *Responsible Energy Development Act*. Filing instructions and forms are on our website under Regulatory Appeal Process.

If you have any questions, contact _____ or _____.

Sincerely,
