Korin Lemay
Shell Canada Limited

**RE: APPLICATION NOS. 1925373 et al.
SOC NO. 31616**

Dear Korin Lemay:

This letter is a follow up to your correspondence received on January 13, 2020. The Alberta Energy Regulator (AER) has reviewed your request and decided to extend the deadline for you to provide a response to SOC 31616. The AER requests that Shell Canada Limited (Shell) submit a response by 4:00 pm on January 27, 2020. Please send your written response directly to Bill Peterson, CNRL (SOC 31616) and copy the AER's statement of concern team at SOC@aer.ca.

If the AER does not receive a response from Shell prior to the deadline, the AER may proceed to make a decision on the applications based on the information currently before the AER, which includes the concerns set out in the SOCs listed above. The AER may consider a request for an extension provided that the request is reasonable and will not unduly delay the processing of the applications.

Per section 49 of the *Alberta Energy Regulator Rules of Practice*, all documents filed with the AER in respect of a statement of concern must be placed on the AER's public record. If a party wishes to keep any information in a document confidential, the party may file a request for confidentiality

prior to filing the document with the AER. Any request for confidentiality must follow the requirements of section 49 and be provided to any other parties to the proceeding.

Should you have any questions, please contact Silken Leach at [SOC@aer.ca](mailto:SOC@ aer.ca).

Sincerely,

<original signed by>
