Will Kettenbach

**EMBER RESOURCES LTD.
APPLICATION NO. 391964
STATEMENT OF CONCERN NO. 31475**

Dear Will Kettenbach:

You are receiving this letter because you filed a statement of concern about Application No. 391964. The Alberta Energy Regulator (AER) has reviewed your statement of concern, along with the company's application, and all applicable requirements and other submissions or information about the application. The AER has decided that a hearing is not required under and enactment, or necessary to consider the concerns outlined in your statement of concern.

In our review of your concerns, we considered the following:

- Two site visits conducted on July 9, 2019 and the other on September 6, 2019 by AER staff to confirm that the soil quantity and quality met *2010 Cultivated Reclamation Criteria*.
- The replaced topsoil soil quantity and quality were as the company reported in their reclamation application.
- Vegetation (wheat) assessment conducted on September 6, 2019 met the vegetation outcomes of the 2010 cultivated criteria.
- You agreed with AER assessment of the site and said you had no objection with having the reclamation certificate issued for this location.

The AER has issued the applied-for Reclamation Certificate and this is your notice of that decision.

Under the Responsible Energy Development Act an eligible person may file a request for a regulatory appeal on an appealable decision. Eligible persons and appealable decisions are defined in section 36 of the Responsible Energy Development Act and section 3.1 of the Responsible Energy Development Act General Regulation. If you wish to file a request for regulatory appeal, you must submit your request in the form and manner and within the timeframe required by the AER. You can find filing requirements and forms on the AER website,

<http://www.aer.ca/regulating-development/project-application/regulatory-appeal-process>.

If you have any questions, contact Steve Demkiw by e-mail at Steve.Demkiw@er.ca.

Sincerely,

<Original Signed By>
