Re: Regulatory Appeal by Renergy of the May 6, 2025, decision of the AER's Regulatory Compliance Branch, to issue an Abandonment and Reclamation Order to Renergy under sections 22 and 27 of the *Oil and Gas Conservation Act*, section 23 of the *Pipeline Act*, and sections 140 and 241 of the *Environmental Protection and Enhancement Act*.
Filing New Information

Dear Counsel:

On April 30, 2026, Regulatory Compliance filed a letter noting Renergy's submissions indicate that Renergy may introduce additional information at the hearing. Regulatory Compliance then requested that, if filing of new information is permitted, the panel establish a filing deadline. Regulatory Compliance suggested that a deadline of at least two business days before the hearing would support an orderly and efficient process.

The panel finds this approach consistent with its April 29, 2026, procedures letter requiring that any visual aids or presentations intended for use during direct evidence be provided to Hearing Services at **least two business days in advance**. **The panel extends this requirement to all direct evidence that contains new information, regardless of form.**

Accordingly, any new information to be relied on in direct evidence must be filed and served no later than two business days before it is presented. This direction establishes a general requirement. Where new information becomes available after this deadline, a party may file a motion for leave to introduce it. Any such motion must be justified, and admission of the new information is not guaranteed.

Sincerely,

Tammy Turner
Hearing Coordinator, Hearing Services
