Re: Northrock Continued Adjournment Request

[By email only]

Dear Parties:

The panel has received Northrock's letter of November 17, 2026, advising that Northrock, Tourmaline, and TykeWest have reached an agreement in principle to resolve the matters at issue in proceeding 467, subject to the terms of that agreement being reduced to writing. Northrock, with the agreement of Tourmaline and TykeWest, requested that the commencement of the hearing be further adjourned from Wednesday, November 18 to Wednesday, November 25, 2026.

The panel notes the parties' expectation that the written agreement can be finalized this week, and that the requested adjournment would allow them to do so while preserving sufficient hearing time should a final settlement not be concluded. The panel also notes the parties' submission that, if the settlement is not finalized, the evidence relating to the substance change and common carrier

Security Classification: Public

applications can be completed within the remaining hearing days, and that the parties will cooperate to identify a date for oral argument or, if the panel considers it appropriate, a schedule for written argument.

Given the above, the panel grants the request. The hearing will now commence on Wednesday, November 25, 2026, at 9:00 a.m. The parties are to advise the Case Manager immediately if a final settlement is reached. If the matters do not settle, the panel will address the process for argument and, if necessary, the regulatory appeal with the parties at that time.

Sincerely,

Harold Robinson
