Alberta Energy

Regulator

Alberta Authority Responsible for Oilfield Waste Form: ALBERTA ENERGY REGULATOR

Alberta Energy Regulator

To order forms, phone 403-297-8311.

FORM COMPLETION INSTRUCTIONS

Distribution:

- 1. Generator completes PART A and has transporter complete PART B. Generator retains one copy.
- 2. Transporter carries 3 copies with shipment and gives them to the receiver. Note: If a serious discrepancy is the result of an activity by the transporter (e.g., truck spill), the transporter must notify the generator within 24 hours.
- 3. Receiver completes Part C, noting any discrepancies, then returns one copy to the transporter and one copy to the generator (to be sent no later than 30 days after the waste shipment date) and retains one copy. Note: If a serious discrepancy is noted, the generator and transporter must be notified within 24 hours.
- 4. Upon being notified of a serious discrepancy, the generator investigates the discrepancy and takes corrective action. The AER must be notified immediately if a serious discrepancy is noted. If the generator cannot reconcile discrepancies within 60 days after the date of the waste shipment, the AER must be notified. Investigation results and corrective action are to be reported in the comments section.
- 5. Companies wishing to use the form for non-dangerous oilfield wastes must indicate on the form that the waste is non-dangerous.

NOTE: All parties must retain FORM copies and supporting data for a minimum of 2 years.
