

AER Update on Imperial Kearn: June 27 – July 4, 2024

Hello everyone,

Please find the latest information regarding our continued management of Imperial Kearn under the terms of the environmental protection order.

If you have any questions, please do not hesitate to reach out.

AER Highlights

- NODA, WETA, DP4, and WB3 areas were inspected by the AER on July 4
- The AER's next planned site inspection is July 11
- AER SMEs are currently reviewing the following documents:
 - Update to the Source Control and Containment Plan – Imperial presented initial findings to the AER on June 3
 - Sampling and Monitoring Plan Addendum – partial review completed by the AER and supplemental information requests (SIRs) were sent to Imperial on June 25
