

AND WHEREAS the Board convened a public hearing on June 21, 2004, to review the gas production status of certain wells in the Chard Area and Leismer Field that were previously considered in Decision 2003-23;

AND WHEREAS on July 27, 2004, the Board issued Decision 2004-062 and Interim Shut-In Order 04-003, with respect to the said proceeding;

AND WHEREAS the Board convened a pre-hearing meeting on September 15, 2004, to consider submissions on the scope of, and the process and issues for a final hearing under Phase 3 of *GB 2003-28*; and on October 14, 2004, the Board issued Prehearing Meeting Decision 2004-088;

AND WHEREAS the Board convened a final hearing under Phase 3 on June 14, 2005, to consider the production status of any zone within a well where a party disagreed with a previous Board decision or order;

AND WHEREAS on November 10, 2005 the Board issued Decision 2005-122 with respect to the said proceeding; and on December 21, 2005, the Board issued an Addendum to Decision 2005-122 providing detailed reasons for its decision;

AND WHEREAS the Board continues to believe that there is a conservation risk to bitumen from continued gas production in wells that communicate with potentially recoverable bitumen.

THEREFORE, for purposes of conservation of the ultimate recovery of bitumen in the Wabiskaw-McMurray of the Athabasca Oil Sands Area, it is ordered that:

1. The licensees of the wells listed in Table 1 attached to this Order, or their respective successors, shall shut in or cause to remain shut in (as the case may be) the particular Wabiskaw-McMurray intervals listed in Table 1, effective the 1st day of January, 2006.
2. The following Orders are rescinded *in toto*:
 - (a) Interim Shut-In Order 03-001;
 - (b) Interim Shut-In Order 04-001;
 - (c) Interim Shut-In Order 04-002; and
 - (d) Interim Shut-In Order 04-003.
3. The Board Order dated the 18th day of March, 2003, specifying the Wabiskaw-McMurray intervals to be shut in pursuant to Decision 2003-23 is rescinded except as to the following intervals:

<u>Licensee</u>	<u>Unique Well ID</u>	<u>Wabiskaw-McMurray Interval (mKB)</u>
Home Oil Company Limited	00/06-24-076-06W4/0	320.5-326.0
Home Oil Company Limited	00/10-22-077-06W4/0	315.0-316.0
Rio Alto Exploration Ltd.	00/10-12-079-07W4/0	291.5-292.5
		295.5-297.0
Rio Alto Exploration Ltd.	00/12-35-079-07W4/0	348.5-350.0

4. In overlapping gas pools, where one pool is allowed to produce and another pool or other pools are required to be or remain shut in, the pools must be segregated in all the wellbores that encounter a pool that is allowed to produce. Zonal segregation tests demonstrating segregation in the wellbores shall be conducted and submitted to the Board in accordance with subsections 11.150(1) and (2) of the *Oil and Gas Conservation Regulations*. If segregation between pools in all the wellbores is not achieved or is not demonstrated by zonal segregation tests that are submitted to the Board, then all pools encountered by the wellbores must be or must remain shut in (as the case may be).

MADE at the City of Calgary, in the Province of Alberta, this 21st day of December, 2005.

**ALBERTA ENERGY
AND UTILITIES BOARD**

**Neil McCrank, Q.C., P.Eng.
Chairman**
